Note that the paper must be fully cleared for presentation at an open conference, as it will be part of the conference proceedings. The speaker is fully responsible for ensuring that technical data disclosed while in attendance is cleared for release through their sponsor and/or employer.

Please read the following instructions for the preparation of your paper in accordance with 3AF's standards for conference proceedings. If there are several authors, the complete affiliation should be given for each of them using superscripts⁽¹⁾ in the authors⁽²⁾ list to refer to them.

5. HEADINGS

5.1. Subheadings

Subheadings or subsection headings are to be in lower case with initial capitals and bold font. They should be flush with the left-hand margin, on a separate line.

6. EQUATIONS

Equations are to be numbered consecutively throughout the paper. Each equation number must be unique. Equations should be centred, with the equation number in parentheses flush with the right-hand margin of the column. Leave a blank line before and after equations. Always refer to equations by number, as Eq. 1 or Eqs. 3-6, not as 'above' or 'below'.

$$T_s = \frac{T_b}{1 + (\lambda T_b / \alpha) \ln \varepsilon} \quad \text{Eq.1}$$

7. FIGURES AND TABLES

Figures and tables can extend over two columns if required. Figure captions should be centred below the figures; table captions should be centred above the tables. Use full word 'Figure 1' or 'Table 1' in the caption. Use the abbreviation "Fig. 1" or "Tab. 1" in the text (even at the beginning of a sentence).

Each SP2018 paper will be assigned a unique 3 digits number identifier: For example, '123'. Letter of acceptance includes your personal paper identifier. All correspondence with the conference organizers should include this identification number.

The filename must clearly identify the paper. Use the paper identifier number followed by underscore and the name of the main author (e.g. 123_SMITH.pdf). Use only capital letters. DO NOT name your file "XXX.pdf".

11.2. Papers are to be delivered by priority to the following login page:

[Dedicated platform](#)

Use personal identifier and password chosen when you created your online account.

11.3. Alternative delivery by email

Only in case of difficulties in uploading your text your completed paper should be sent by email to the following address:

sp2018.prog@3af.fr

Use the paper's identifier as the subject line and attach the paper

NOTE: Please do not upload **and** email the same electronic file. Multiple submissions cause confusion over which file is to be used for publication.

If you are submitting more than one paper, please submit each paper in a separate procedure or email message.
